PLEASE SPECIFY THE CROP FOR WHICH YOU ARE FILING A LOSS. (One crop per notice.):

Specify below all county locations that have experienced damage.

County	Cause of Loss	Date of Loss

Indicate the condition of the damaged crop acreage for which you are claiming a loss by marking the box at left and answering the questions for that section.

- PREVENTED PLANTING**
(Unable to plant all or part of the insured crop acreage by the final planting date or within the late planting period for the crop.)
- REPLANT TO SAME CROP**
(Replanting previously planted acreage to the same crop due to damage or conditions preventing an adequate stand.)
 - 1. Are at least 20 acres or 20% or the acres in each of the reported unit(s) being replanted? YES NO
 - 2. Are more than 50 acres being replanted within any unit being reported? YES NO

****You must obtain company approval before destroying or replanting any of the crop acreage you intend on replanting!****
- NOTICE of DAMAGE**
(Crop has sustained damage, however all acres will be taken to harvest - it appears production will exceed guarantee at this time.)
**** A claim will be filed for the crop(s) reported. The company will take no further action at this time. Please notify your agent if loss becomes apparent or if crop sustains additional damage.**
- HARVESTABLE**
(Part or all of crop acreage being reported has significant damage, however all crop acres will be harvested.)
(Harvest means: Harvesting in a manner consistent for the insured crop being reported, ie. corn insured as grain, harvested for grain.)
 - 1. What is the approximate date of harvest for the crop(s), you are reporting a loss? _____
 - 2. Will any harvested production from the reported acreage be farm stored or used in another method other than storing or selling? YES NO
 - 3. Will all harvested production from the reported acreage be delivered or sold to an elevator, processor, or third party? YES NO
 - 4. Will the estimated amount of your loss exceed \$5000 for any individual crop unit for which you are reporting a claim? YES NO

****Your policy requires that you keep a complete record of harvesting and marketing records of each insured crop for each unit.****
- SEVERELY DAMAGED**
(Part or all of the crop acreage has sustained severe damage - intend to destroy, hay, graze, chop for silage or abandon ANY acres of the crop within the unit(s) being reported.)
****You must have company approval before destroying any crop acreage of the unit(s) reported for loss.****
****Your policy requires that you continue to provide ordinary care to your crop(s) after reporting a claim.****

Other Policies?
If the interest share for any of the crop units reported for loss are less than 100%, is the other share insured? YES NO

Please list associated policies.

---------------------	-------------------	------

Your policy requires that you report any probable loss in writing within 72 hours of your initial discovery of damage (but no later than 15 days after the end of the insurance period) by unit, for each insured crop, unless stated otherwise in the specific crop provisions. If during harvest a probable loss is suspected, you must notify the Company promptly, and give dates when harvest will be completed. Representative unharvested sample areas of the crop must be left, as specified by the Crop Provisions, so the adjuster may verify the cause and extent of damage. The size and number of sample areas may vary by crop and acreage but should be for most crops: (a) a strip at least ten feet wide extending the entire length of each field in the unit(s) or (b) as specified by the specific crop provisions for the crop. The sample areas must not be harvested or destroyed until the time specified in the applicable crop provisions. Should you wish to work the harvested acreage, some crop's provisions required that representative sample areas of the stubble be left in tact. Make sure sample areas are representative of the entire field.
